LEARNING, TEACHING AND ASSESSMENT INFORMATION

6a. Module Description

You'll explore basic accounting concepts to develop the knowledge and skills required to understand and apply International Accounting Standards in the preparation of financial statements for entities. You'll consider the conceptual frameworks for financial reporting, the required accounting treatment for key items appearing in financial statements, the preparation of cash flow statements and the analysis and interpretation of financial statements.

6b. Outline Content

- Fundamental accounting terminology, accounting concepts and principles
- The duality system, ledgers and transactional analysis
- Accounting for companies and other businesses
- Preparation of financial statements (Income statement, Statement of financial position and Cash flow statement).
- Analysis and interpretation of financial statements.

6c. Key Texts/Literature

The reading list to support this module is available at: <https://readinglists.aru.ac.uk/>

6d. Specialist Learning Resources
