LEARNING, TEACHING AND ASSESSMENT INFORMATION

6a. Module Description

You'll be introduced to the concept of property, proprietary rights, as they are recognised and protected in equity, and explore the nature of the trust, including trusts formed under the laws of succession. We'll include an historical account of the development of and distinction between law and equity before examining the nature of equitable rights and remedies.

Over the module you'll gain a sound knowledge and understanding of equity and the law of trusts, succession including wills and intestacy rules, developing your critical analysis to suggest reasoned solutions to factual problems. It covers the importance in a legal practice, possibly as a commercial or family practitioner, of property, conveyancing and succession as well as fiduciary relationships, charitable status and trustee duties, formalities and mental capacity.

As this module fulfils part of the seven Foundations of Legal Knowledge, in alignment with the Bar Standards Board's requirement compensation is not permitted for this module.
